

PSHE

What does PSHE look like at Broadwas CE VA Primary School?

At Broadwas we aim to provide a range of opportunities so that our children learn and grow in a well-balanced way beyond the academic and to move through and beyond childhood with support and guidance to encourage both an awareness of others and increasing independence.

Through this, children can develop the confidence, talents and skills, to become effective individuals, motivated learners and active citizens.

We want to prepare them for the future by encouraging the development of characteristics such as a love of learning, resilience and perseverance, integrity, team work, critical thinking and independence.

Each class has discrete, timetabled PSHE curriculum time, Relationships and Sex Education and PSHE related issues are encountered in the wider curriculum, such as E-safety in computing or healthy lifestyles as part of the science curriculum.

Special events, training, workshops & whole school worship are organised to support the PSHE curriculum.

Broadwas pupils say...

'It helps us to learn about our health. This helps us to stay healthy! The sessions are fun and we enjoy playing games!'

'I like playing the games and acting. I enjoy learning about keeping healthy and have learnt to not eat too much junk food. Exercise is so important for me!'

Our extracurricular events and trips

Singing Christmas Carols at the Residential Home

Visiting and donating to the food bank

Visiting the Recycling Centre
