

Percy Jackson and the Lightning Thief

Percy Jackson is all about a little boy who at first thought he was normal but was actually a demi-god (which is a person who is half boy half god). He goes on lots of different quests with two other people, the first is Grover who is a satyr and is half man half goat and the other person is Annabeth whose mum is Athena who is goddess of wisdom and battle strategy.

When they go on the quest they have to go to three different places in the world to collect three pearls. When they have collected all of them they need to go to the underworld where Hades lives and when they meet Hades they step on the pearls and they automatically get sent to Olympus to give the lightning bolt back to Zeus.

I recommend this book to be read at the ages of 6 to 13. I think people who like learning about ancient Greece will enjoy reading this book.
